About Us

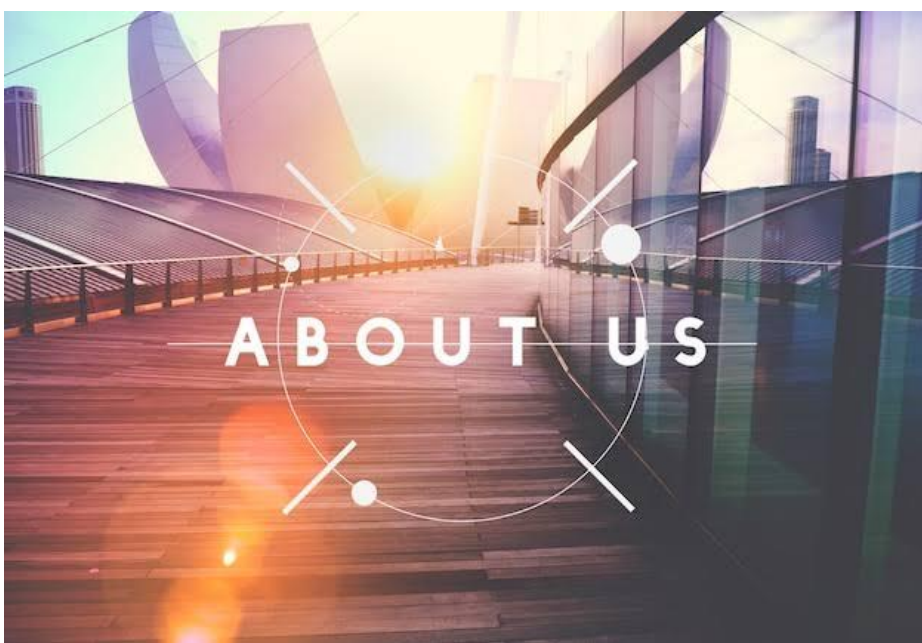

Masville Resources Limited is a leading provider of world-class integrated solutions to the Oil and Gas, Energy, Government, Public & Private Industry in Nigeria and beyond that is critical to their business objectives in the areas of; Engineering, Construction, Procurement, Information Technology, Facility Maintenance, Inspection & Testing, Technical Consultation and Marine Logistics & Support Solutions.

Our professional synergy operating from strategic key energy hubs offers an enhanced range of innovative multi-disciplinary services.

Acting as a single source provider and supported by strategic local and foreign partners to bring the latest and best technologies to our customers. We have a responsibility to ensure that our customers are benefitting from the most appropriate tools and technologies available in the industry to ensure a job “well-done”...! This model parallel with our client objectives, timelines and budgets, adds value at multiple steps through experience, equipment, expertise and relationships.

Masville Resources Limited believes that there is a market requirement for a specialist service provider that will listen, concentrate and focus on the needs of its clients whilst performing accordingly. It is the duty of the service provider to mitigate the client's risk and exposure wherever possible. MRL continues to deliver safe, reliable & the highest quality service through the provision of competent personnel, state of the art well-maintained equipment with necessary technical Support.

We operate a comprehensive service base here in Nigeria, our services are provided across the industries with corporate Headquarter in Port Harcourt and branches across the Federation.

Our Vision is to be the leading and fastest growing oil and gas service company in Nigeria.

Our mission is to be the preferred service provider of excellent services.

- **Employees – We Are A Family**

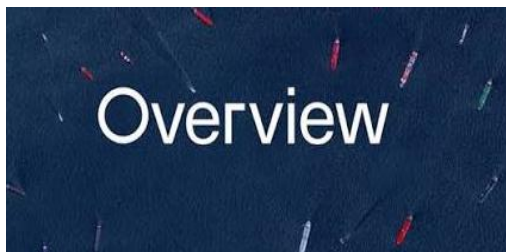

We will do all that is possible to ensure that we make Daramyx Solutions Limited a place for employees to feel proud and happy to be part of. A place we can call a home.

- **Customer First**

We are a customer focused organization. We will thus ensure that all our activities are geared towards making customer feel like a king while doing business with us as we deliver quality services at the bearable cost possible.

Truth Always

No matter how hard it might be, we will ensure that we maintain our integrity as a company by making sure that our customers and partners trust us at all times.

Masville is committed to the provision of products and services in addition to meeting customer's needs, expectations, will satisfy all applicable statutory and regulatory requirements.

This central objective will be achieved through the development and implementation of a Quality Management System based on the International Standard, ISO 9001—2015, and dedicated to continual improvement.

The fundamental requirement of this system calls for a systematic and disciplined approach by all employees in accordance with formalized processes and documented procedures.

The management will review the quality system at planned intervals and provide the resources necessary to ensure its continuing suitability. This strategy ensures improved remunerated maximum utilization of staff potential.

RESOURCES

Masville highly motivated, intelligent dedicated personnel drive the operations of the company, it is the company's strategy to maintain a minimum workforce.

Masville undertake regular training and encourage staff professional development, provide journals and correspondences to enable staff keep abreast with development thereby enhancing productivity in the various divisions of the company's operations.

Our Operations

Our business activities focus principally on the listed solutions below, but not limited:

- Engineering Construction Solutions
- Procurement Solutions
- Information Technology Solutions
- Facility Maintenance Solutions
- Inspection & Testing Solutions
- Technical Consultation Solutions
- Marine Logistics & Support Solutions

Engineering Construction Solutions

Masville Resources Limited utilizes traditional and advanced engineering resources , as well as conceptual and detailed designs by utilizing world-re-nowed partners to support, certify and re-enforce our carious projects.

Our engineering expertise and solutions includes but not limited to the following:

- Civil/Structural Construction
- Mechanical Fabrication
- Piping Stress and Structural Analysis
- Pipeline Hydraulic Simulation
- Process Engineering
- Electrical and Instrumentation
- Equipment Selection and Specification
- Detailed Material Take-Offs (MTOs)
- HAZOP Analysis
- Feasibility Study
- Project Management, Organization, Estimating & Scheduling
- Site Surveying and Investigation
- Design & Layout
- Detailed Engineering for Onshore & Offshore Facilities

Procurement Solutions

Masville Resources Limited provides procurement & supply solutions in of heavy and low industrial tools and equipment from oil field tools, to chemical & catalyst supply, safety equipment,, etc to any part of the country through our well planned and controlled distribution network. This service is offered to all sectors.

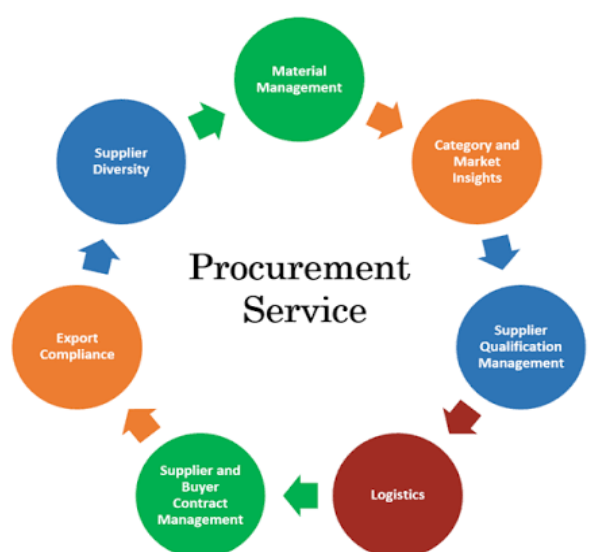

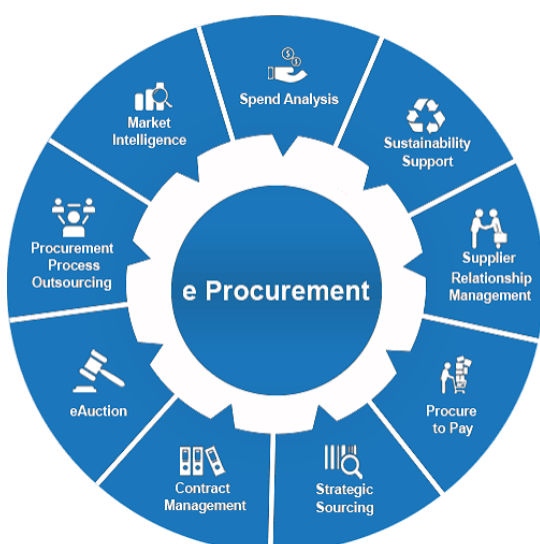

Our procurement & supply services is an act of finding, obtaining, acquiring or buying goods and services from external source, often via a tendering or competitive bidding process.

The process includes preparation and processing of a demand as well as the end receipt and approval of payment. It often involves:

- 1) Purchase Planning,
- 2) Standards Determination,
- 3) Specifications Development,
- 4) Supplier Research and Selection,
- 5) Value Analysis,
- 6) Financing,
- 7) Price Negotiation,
- 8) Making the Purchase,
- 9) Supply Contract Administration,
- 10) Inventory Control And Stores, And
- 11) Disposals and Other Related Functions.

We deliver to your doorsteps tools, spares and equipment as you need it and at the right time.

In this area, we have delivered to several clients with strong support Agencies both local and international.

Information Technology Solutions

FIBRE OPTICS AND LAST MILE SOLUTIONS:

In the broadband communication sector, fiber optic technology has become the mainstream for communities, companies and telecom transmission deployment as it fulfills the cloud application, high-demanding multimedia streaming needs and a transmission distance of up to 120km.

To satisfy the demand of this infrastructure, **Masville** has come out with a complete product line with our partners of Fiber Switches, Fiber Routers, Metro Fiber Switches, Commercial and Industrial Media Converters, GPON/ GEPON ONU, and PoE Media Converters.

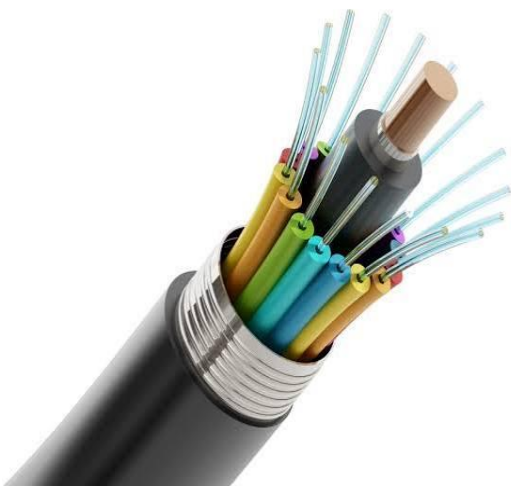

Masville also provides a combined CO and CPE VDSL2 solution to meet the last mile transmission requirements.

To improve the technology of Optical Fiber Ethernet with highly-flexible, highly-extendable and easy-to-install features, the data rate and distance of Optical Fiber Ethernet are up to 100Gbps and up to 120km, respectively.

Masville provides many kinds of Point-to-Multi Point Managed Fiber Switches and CPE especially for Metro Ethernet applications.

The benefits of this Metro Ethernet Switch Solution include not only professional Internet Management Technology, such as IPv6/IPv4 Dual-Stack, Q-in-Q VLAN, Multicast, QoS, Security and High Availability, but also Optical Ethernet Internet Architecture up to 100Gbps to meet the needs of high-bandwidth multi-media.

It is the best choice to connect the enterprise and community in the metropolitan area to backbone network for service providers.

Electrical Instrumentation Solutions

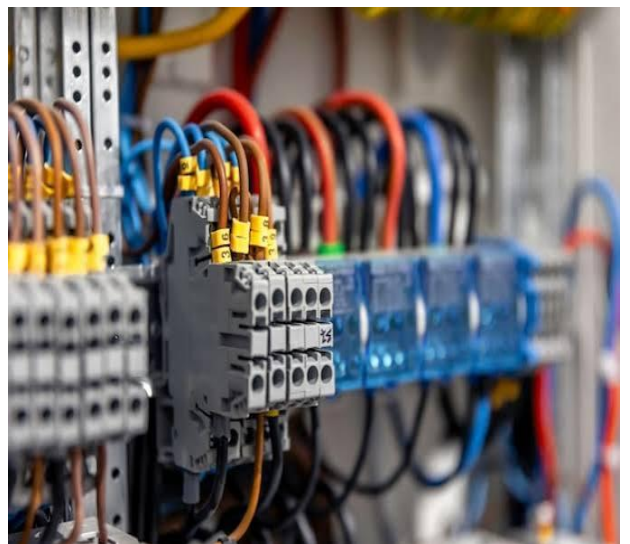

We provide new-build installation and maintenance of electrical and instrumentation services to customers in a variety of industries.

We work with customers in the oil & gas, pharmaceutical, biotech, energy, food and beverage industries, public & private offering a wide range of services for installation and commissioning works for the latest technologies in the marketplace.

We provide qualified personnel to ensure highest quality and safety standards are adhered to.

Our fully integrated service offering includes:

- LV, MV and HV installations in hazardous and safe area environments
- Design and build HV & LV switchgear
- Hazardous- and safe-area equipment
- Cable containment systems
- Fire & gas detection systems
- Industrial lighting and general services
- Bench and field calibration of all manufacturers' instrumentation
- Loop check, startup, commissioning and validation work associated with new installations or shutdown maintenance
- Supply and installation of remote I/O, Profibus, PLC and DCS systems
- Instrumentation calibration and maintenance on a contract-maintenance basis
- Provision of instrument technicians for maintenance campaigns
- Communications – installation, terminating and testing of fibre optic and copper cabling solutions
- ATEX inspections
- PAT testing services

Pipeline & Subsea Engineering Solutions

Masville Resources Limited has been envisaged to cater to world class engineering solutions in Offshore Engineering adhering to the latest standards, codes and recommended practices in the Oil & Gas industry.

We assist EPCI companies in offshore related engineering analysis from FEED, Detail Engineering, Installation Engineering to Pre-commission phases during the course of the projects related to rigid pipelines projects.

We are comprised of well experienced engineers in the design and installation engineering and will be actively involved in offshore Oil & Gas projects.

Masville Resources Limited Provides specialist consultancy services for all aspects of offshore Subsea pipeline engineering as well as Project management activities.

We have a panel of specialist engineers who will provide the necessary assistance as and when required.

The company has purchased the perpetual license to use CAESAR II, OFFPIPE, AUTO PIPE, STAAD PRO and GRLWEAP software programs. All other necessary software programs such as PLUSONE etc. will be leased out as per the project requirements.

Industrial & Maintenance Field Solutions

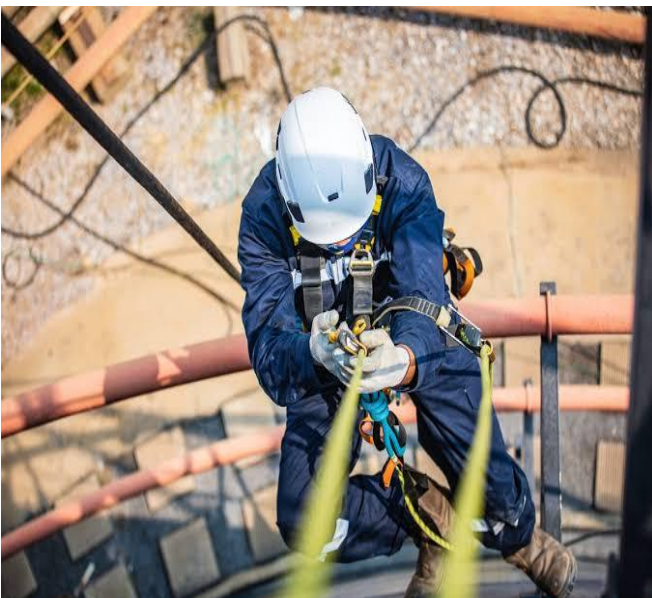

ROPE ACCESS SERVICES

Masville Resources Limited success is based on thorough training and strict work guidelines that deliver an unrivalled safe working record year after year.

With industry leading expertise, rope access is an intrinsically safe form of access for working at height or areas that are difficult to reach with traditional forms of access.

Furthermore, the nature of rope access reduces project time, lowering downtime and minimizing the impact on ongoing operations, significantly reducing the cost to clients in comparison to traditional methods.

Rope Access has brought tremendous benefits to our customers. All of our experienced personnel are IRATA qualified, ensuring that work is carried out in a safe, reliable manner. Masville Resources Limited technicians are not only trained in access, but are multi-disciplinary operatives. Services offered can range from maintenance services such as coatings and insulation, to specialist services such as Non-Destructive Testing (NDT), inspections and plant Integrity

“Know Safety, No Accident”

Industrial & Maintenance Field Solutions

SURFACE PROTECTRION SERVICES

Masville Resources Limited Oilfield Services Limited has extensive knowledge and practical experience in the various techniques available for surface preparation and associated protective surface preparation and protective coating application methods to meet required industry quality standards.

We own an extensive inventory of equipment including semi-automated propriety systems enabling us to undertake surface preparation by means of UHP water jetting (Hydro-blasting), abrasive (wet and dry) blasting and mechanical methods including dust-free and recyclable options. Once prepared, we can apply a range of coating and composites including industrial epoxies, alkyds and urethanes, non-slip helideck and coatings, screeds and tiles, tank and vessel linings and anti fouling coatings by means of conventional spray, airless spray or manual brush roller application as appropriate integrity.

Our core in-house capabilities and project management skills give us the ability to provide integrated solutions and to deliver turnkey painting programs for our clients as they combat corrosion and maintain their assets integrity.

OFFSHORE SURFACE PROTECTION

Reliability of our surface protection products, performance and services is key to all aspects of our operations. We are confident that we have the specialist technical skills, resources and capabilities to excel in service delivery.

Our capability includes surface protection, passing fire protection, composite wraps and repair technology, technical support, pre-survey work and cost containment.

We have the resource capability to mobilize qualified supervision and inspectors. Our highly skilled labour force consist of leading experts in their fields and are fully conversant in dry and wet blasting offshore techniques and painting offshore also.

TANK COTING

You can use the best coating/paint products in the world, but if the surface is not prepared properly before the application, premature failure of the coating and deterioration of the substrate metal is inevitable. Our tank Coating Specialists study each project and determine the optimum approach to surface preparation based on site specific conditions such as tank materials, existing corrosion, humidity and other environmental conditions.

Inspection & Testing Solutions

Masville Resources Limited specializes in maintenance inspections performing non destructive testing (NDT) inspection on all down-hole drilling inventory ranging from OCTG & drill pipes, crown to the drill bits. All Masville's Inspectors are API certified.

INSPECTION SERVICES PROVIDED:

- Magnetic Particle Inspection (MPI)
- Dye Penetrant Inspection (DPI)
- Eddy Current Inspection (ECI)
- Ultrasonic Inspection (UT)
- Boro-Scope Inspection
- Radiography
- Hardness Testing
- None Destructive Testing (NDT)
- Bottom Hole Assembly Inspection (A.P.I/DS-1)
- Drill Pipe Inspection (A.P.I/DS-1/NS-2)
- Riser Inspection
- Casing Inspection (A.P.I)

Overhaul/Installation & Commissioning Solutions

Masville Resources Limited offers the best and most affordable support with our Site Service team available to provide high quality support services as and when required, provide technical support and after-sales services that are in line with our expertise with backup from OEM Partners across the globe.

We have proven track record (Installation & Commissioning – Maintenance, Refurbishment, Overhaul) of Fire water pumps, Heat exchanger, Fire heater package system , Onshore & Offshore Quick Connect Disconnect Coupler (QCDC), Quick Release Offshore Hook, ESD Test(of MLA, QCDC, QRH), specific M E&I Test related to these equipment.

We trust that with our comprehensive and high-quality range of engineering expertise, we would be able to serve our customers needs and demands.

Our experts provide a depth of experience in all aspects of onsite services including but not limited to the following:

- Overhaul of Rotating Equipment
- Installation Services
- Pre-commissioning /Testing of installed plants
- Commissioning & Start-up assistance
- Optimization of Plant efficiency
- Overhaul & Repair
- Equipment condition and maintenance surveys

Technical Consultation Solutions

Our Technical Consultation services provide expert guidance for engineering, operational, and project management challenges.

We help organizations identify optimal solutions, reduce risks, and implement best practices across complex industrial environments.

Key Offerings:

Our comprehensive service includes a wide range of solutions tailored to meet your specific needs.

- Engineering feasibility studies and system assessments
- Design review and optimization recommendations
- Project planning and execution strategies
- Technology selection and implementation guidance

Marine Logistics & Support Solutions

Masville Resources Limited provides high marine engineering and logistic support services to our clients throughout Nigeria, particularly in Niger delta, with our experienced and qualified staff, we have been designing and implementing practical solutions to meet clients' objectives for over 7 years. Our marine engineering and logistic services ranges from:

- Dredging: Sandfilling
- Canalization/Reclamation
- Shore Protection and Sweeping
- Towage and Badge Opearitions
- Platform Support Services
- Provision of Tug Boats, Badges, Security Vessel, Supply Vessel, Survey Vessel, Crew Boat, House Boat and Speed Boats.

NIGERIAN CONTENT POLICY

MASVILLE RESOURCES LIMITED is aware of Federal Government regulation on Nigerian Content Development. In compliance to this content development regulation, we are determined to;

1. Employ Nigerians only as staff in our Company.
2. Source for materials in Nigeria or where materials needed are not in Nigeria. We shall commit or engage the services of Nigerians to source for the materials.
3. Shall provide approved training programme for staff.
4. To provide incentives to our staff in line with NOGICD regulation.

We resolve to apply the NOGICD act 2010 as they affect our operations.

Signed
Managing Director

HSE POLICY

The Management of Masville Resources Limited ranks supreme the safety of its personnel, the client personnel and any other person who may be directly or indirectly involved in its operations.

The Management recognises that a safe work place is a combination of several factors involving the interplay of personnel, material, and equipment. Based upon this recognition, the Management shall ensure:

That suitable and adequate personnel, material and equipment is available for its operations.

That staff receive adequate safety training.

That safety meeting, including toolbox talks is held regularly on all sites.

That safety audits are regularly conducted to ensure compliance to safety standards, rules and regulations.

MRL Management shall demonstrate these in all her operations and shall be responsible for a safe work place, free from foreseeable risks and hazards. MRL believes that accidents are caused and, therefore, can be prevented.

Employee Safety Performance will be a major consideration in decisions affecting promotions, salary, and continued employment. Safety is the responsibility of every employee.

***Signed
Managing Director***

QUALITY POLICY STATEMENT

It is the policy of Masville Resources Limited to provide products and services which comply with contract specification.

It is the management's intent and commitment to ensure a planned and organized quality system which can demonstrate execution of those products and service in accordance with ISO 9001 series and other equivalent international standards. We aim to meet or exceed customer's requirement for performance, time scale, quality, competitive cost and service and we are committed to on-going improvement of our products and services by a process of employed participation and teamwork.

In order to achieve these quality objective the company places importance on the tracing and eradication of causes of error with emphasis on prevention thus achieving high quality and improved efficiency.

The Quality Manager has the responsibility of coordinating and implementing the Company's Quality System: identifying quality related problems and recommending corrective actions to eliminate non-compliance.
